

ELEMENTAL MATCH

2 - 4 players

36 cards

Instructions:

- 1) Shuffle the cards and deal 7 cards to each player. Players should hold their cards in their hands facing them.
- 2) Place the remaining cards face down to form a draw pile.
- 3) Take the top card of the draw pile to start a discard pile face up.
- 4) The youngest player goes first and turns proceed in a clockwise direction.
- 5) On their turn, the player will discard a card that matches the top card of the discard pile, either by color or element.
- 6) If the player does not have a matching card, they must draw a card from the draw pile until they get a card that matches and play that card.

7) If a player can play 2 cards of the same color and element consecutively (e.g. 2 red fire cards), the player shouts "Fusion!" and all other players are forced to draw 2 cards.

8) If a player plays the Harmony card, they are allowed to choose any card from the discard pile. That card is played on top of the discard pile and the game continues.

9) If the draw pile is empty, shuffle the cards in the discard pile, excluding the top card, to form a new draw pile.

10) The game continues until a player gets rid of all their cards by playing them onto the discard pile. The player with no more cards left wins.

11) Players cannot end the game with a Harmony card. If they attempt to do so, they will have to draw 2 cards and the game continues until a legitimate winner emerges.
