

# GROWING VEGETABLES

2 - 4 players

36 cards

## Instructions:

- 1) Shuffle the cards and deal all cards face down equally among the players.
- 2) Players should keep their decks of cards face down in front of them.
- 3) The deck consists of 2 main card types: Vegetable cards and Power-Up cards, which include sunlight, water and fertilizer.
- 4) Every vegetable is missing either sunlight, water or fertilizer, as indicated on the bottom left of the card.
- 5) The youngest player goes first and turns proceed in a clockwise direction.
- 6) On their turn, a player takes the top card from their pile and flips it face up onto a central pile.

7) When a Vegetable card is placed and its corresponding Power-Up card is revealed immediately after in the next card, players should shout "Grow!" and slap their hand on top of the central pile.

8) The player who shouts "Grow!" and is the first to place their hand on the central pile, takes the entire central pile, shuffles the cards and adds them to the bottom of their own pile.

9) The same player then continues by playing the top card from their pile onto the central pile.

10) If "Grow!" is wrongly called, the player must give one card from the top of their pile to each of the other players. The other players will add the card received to the bottom of their pile.

11) The game continues until one player acquires all the cards. The player with the entire deck of cards wins.
